EDUCATION

Pursuing : B.Tech. (Computer Science Engineering) from Bhabha University Bhopal,
2018 Diploma(Electronics Engineering)70% from Government Polytechnic Deoria Up Technical Board,
2014: Class 12th 75% from Up Board,
2012: Class 10th 76% from UP Board.

Internship:-

Four week Training at NER Gorakhpur

Project:- Traffic Light Control

PERSONAL DETAILS

Date of Birth: 3 r d M a r c h 1 9 9

8 Languages Known: English and
Hindi

Address: Medical college Gorakhpur ,U.P(273013)

ANNEXURE-PROJECTS HANDLED

VR Techniche Pvt. Ltd.

Project: Websites & GUI,Dashboard

Skills: PYTHON, DJANGO Framework, Scripting, MySQL, PostgreSQL

Scope: As per current Industry Standard developed Cloud Based System for highway toll Plazas and lanes,where All Testing will be done only using Standard AI, All Data will be captured and stored into Database.Real-time Informatios Graphs are displayed for Management view to get overview of toll and highways.

Responsibility:

- Real time Dashboard designed using Python ,Django.
 - Project Dashboard designed using Django .
 - working with Api of transection in Toll Plazas

VVDN Technologies Pvt. Ltd.

Project: Cloud Based Production Automation & Dashboard

Skills: PYTHON, DJANGO Framework, Scripting, MySQL, PostgreSQL

Scope: Industry Standard developed Cloud Based System for production, where All ProductionTesting will be done only using Standard Browser and Socket Communication, All Data will be captured and stored into Database. Real-time Information Graphs are displayed for Management viewtogetoverview of Production.

Responsibility:

Real time Dashboard designed using Python ,Django

Develop Scripts for Communication with DUT (Device Under Testing).

Fetching Video Stream for Camera Validation.

Device Final Label Print Automation.

Making Sure no Repeated Query go to DB.

Dashboard designed using Django Framework.
